Education

Texas A&M University College Station, TX

Bachelor of Science in Engineering, Class of 2029 *Aug. 2025 – May 2029*

- Aggies Create, Aggie Cyber, TAMUhack, Jujitsu Club

James E. Taylor High School Katy, TX

High School Diploma, Graduated with High Honors, wGPA 4.36 *Aug. 2021 – May 2025*

- Computer Science Club (President), Rock Climbing Club (President), Robotics Club (Vice President), SkillsUSA Cybersecurity (3rd at Nationals), FBLA (National Finalist), National Honor Society

Experience

Business Analyst Intern May 2026 – Aug. 2026

Oil States International *Houston, TX*

- Surfaced holes in data collection across aerospace operations by building standardized SQL Server semantic models and Power BI dashboards, exposing past-due work orders and inventory discrepancies
- Sped up databook creation across two disconnected ERPs by bridging Glovia (SQL Server) and MasterControl (REST API) with a Python ETL pipeline, cutting 4-5 hours of manual work per databook section
- Cut accounting process turnaround ∼10% (one full business day) by developing a SharePoint Month End Status Tracking system with version control for financial submission packages
- Expanded Commercial Contract Review automation to Houston pipeline repair product line by reverse-engineering an existing Copilot Studio solution
- Drove company-wide AI adoption by founding internal AI community, drafting AI acceptable-use guidelines, and sharing custom GPTs for document review and API development

Head Lifeguard May 2022 – Aug. 2024

GHPM – Green Trails Estates Pool *Katy, TX*

- Operated as head lifeguard for the Green Trails Estates pool, developing leadership, problem-solving, and conflict-resolution skills
- Took part in daily business operations, coordinating staff and ensuring safety of patrons

Projects

TAMU Schedule Helper | *JavaScript, Userscripts, Browser APIs* Aug. 2026 – Present

- Built browser extension that injects RateMyProfessors ratings and Anex grade distributions directly into the TAMU Aggie Schedule Builder
- Streamlines course selection for Texas A&M students by surfacing professor quality data inline

pi-provider-kimi-code | *TypeScript, API Integration* July 2025

- Contributed to an open-source provider plugin integrating the Kimi Code (Moonshot) coding plan into the pi coding agent

Awards
